Three Bidders Seek City Bus Depot Contract

A proposed bus depot for central Torrance is the center of a city hall merry-go-round this week with three riders all reaching for the brass (or gold) ring.

At a recent meeting of the City Council three proposals by prospective operators of a much-needed bus depot were heard by the city fathers.

Submitting offers were:

Charlie Gots, owner of Daniels Cafe, 1625 Cabrillo avenue, James Baudin, owner of the Drivela Restaurant, 1311 Cabrillo; and

Herb Allen, owner of the Torrance Recreation Center, 1413 Cravens avenue.

Awarding of the "bid" was withheld pending publication of notice that the city was intending to receive proposals from any and all other sources. The intentional delay also would give City Manager George Stevens time to prepare an operating agreement which is likely to be in effect for the next two years.

If granted the depot franchise, Gots would convert part of his present restaurant into a waiting room and snack bar with covered loading ramps adjacent to his cafe, he said. He proposes to pave a 70-foot lot south of his place of business to allow off-street loading and unloading of buses.

Baudin's plan calls for the construction of a new modernly styled depot-restaurant.

Allen's proposal offers the use of the west half of a building owned by him and now under lease to the Torrance Recreation Center as a poolroom. He stated that he would be able to provide restaurant facilities and rest rooms within the next 90 days.

Granting of the franchise, now held by L. L. Prince, owner of the Beacon Drug Co. at the intersection of Cabrillo and Gramercy avenues, is expected at the next council meeting.

STEELHEAD FISHING GOOD

Steelhead fishing has been very good during the past few days along the Klamath River in the vicinity of Orleans in Humboldt County, reports the National Automobile Club. Anglers have taken many fine limits.

Reflections

Mail

Gifts Now

The peak of Christmas rush is closer than we think. This year delays can be, probably will be, greater than at any previous time in the history of our Postal System.

In spite of inadequate terminal facilities and ancient motorized transportation more than 50% of all mail, now, by bulk, is Parcel Post. Express personnel work only five days a week. Express rates were increased; less-than-car-load-lots express shipments decreased; this decrease of express shipments has gone to Parcel Post, taxing facilities to the utmost. Terrible traffic jams are inevitable.

Our Post Office personnel do a good job all the time and at Christmas season they do a colossal job. We can help them, and ourselves, by mailing our gifts early, now. Be certain there is an address inside each package, that each one is wrapped in strong paper and securely tied. Then MAIL THEM NOW.
